

IntSource

```
classDiagram
    class IntSource
    class RoggenDataExtension
    class RoggenSensor
    class RoggenSensorFusion
    RoggenDataExtension --|> IntSource
    RoggenSensor --|> IntSource
    RoggenSensorFusion --|> IntSource
```

A UML class diagram illustrating inheritance. At the top is a box labeled 'IntSource'. Below it are three boxes: 'RoggenDataExtension' on the left, 'RoggenSensor' in the center, and 'RoggenSensorFusion' on the right. A horizontal line connects the three bottom boxes. From the left end of this line, a vertical line goes up to the 'IntSource' box. From the right end of this line, a vertical line goes up to the 'RoggenSensorFusion' box. From the center of this line, a vertical line goes up to the 'RoggenSensor' box. All three vertical lines end in arrowheads pointing towards the 'IntSource' box, indicating that 'RoggenDataExtension', 'RoggenSensor', and 'RoggenSensorFusion' all inherit from 'IntSource'.

RoggenDataExtension

RoggenSensor
